

Safe driving means the world to us!

We racked up an amazing 884,607km of driving across our project spreads during September – the equivalent of 22 trips around the world.

And while that's a tremendous feat any day of the week, the most impressive outcome is that 604 drivers involved in the tally did so with perfect 100 Red Amber Green (RAG) results.

So, how did they record perfect RAG scores?

Well, focusing on speed and braking was the main safety measures they took, but ensuring seatbelts were worn and proper rest breaks were taken, also featured highly in their September RAG report.

So, a big well done to everyone scoring a perfect 100 this month, and for those that didn't quite get there, take on board the safe driving measures you can take to see if you make next month's perfect driver list.

Once again, we did a random draw of the 604 perfect drivers and the three winners of an MPK merch bag are Bevan Roberts and Tynnan Bryne from the Santos project and Anthony Thrupp on Well Services' Rig 8.

Awesome job guys - your MPK merch bags are on their way!

MPK. Right solutions. Right people. Right for the future.

Two of the three winners Tynnan Byrne (left) and Beven Roberts (right) receiving their prizes from Brad Cambridge (centre).
